6 Spring Decorating Ideas
to Freshen Up Your
Home This Season

The dreary, dark days of winter may be upon us now, but spring and its warmer weather are right around the corner. If you're thinking about revamping your outdoor space, consider constructing a pergola. What is a pergola? It's a rustic, pavilionlike structure supported by beams and typically topped with an open lattice roof to provide shade for your warm-weather picnics and strolls, as well as a structure for vines like wisteria and bougainvillea to run wild.

They're also the perfect addition to gardens both large and small for a touch of elegance and to maximize your time spent outdoors. To kick-start some inspiration, we've rounded up the best pergola ideas to inspire your garden plans. Whether a respite from the sunshine or a covering for the dining area, the inspiring spaces of the likes of Ina Garten, Reese Witherspoon, and 14 others have you covered—literally!

8 PRETTY PERGOLA IDEAS TO TRANSFORM YOUR PATIO & BACKYARD

1

COMPLEMENTARY COVER

In interior designer Cliff Fong's midcentury ranch, a distressed pergola covers a lush dining area above his backyard's nearly 400 orchids. Simple furniture ensures the surrounding nature is still the star of the show.

2

SMALL BUT MIGHTY

An extension of fabric designer Natasha Baradaran's Los Angeles home, a narrow pergola blends in with the rest of the home's exterior. Painted all white, the structure casts shade over the seating area without feeling too closed in.

3

WILD WISTERIA

To coordinate with the rest of this Southampton, New York, home's rustic nature, a wooden pergola is covered with vines of white wisteria. Not only does the flowing plant provide more shade, but it also creates a natural transition to the rest of the outdoor space.

4

CONTRAST WITH ACCESSORIES

In model Eugenia Silva's outdoor space, a sparse pergola offers a shady respite from the Portuguese sun. The stark white creates contrast against Silva's colorful upholstery and cushions.

5

FULLY SHADED

Featuring a fully thatched roof as opposed to wide, open beams, this pergola in Greece shades those underneath completely. Built out of laminated bamboo, the covering encompasses a poolside dining area and lounge chairs.

6

LET THE PLANTS TAKE OVER

On Reese Witherspoon's Los Angeles terrace, vintage dining furniture sits beneath an abundance of vining greenery. Not only does the covered pergola offer a romantic feel, but it also negates the need for constant maintenance.

7

A SIMPLE SETTING

Rather than a large pergola to cover an entire porch or terrace, chef Ina Garten's version covers just a garden bench, carving out a shady spot in her otherwise sun-soaked yard.

8

BRIDGE THE INTERIOR WITH THE EXTERIOR

Attached to the pool house on this Bridgehampton, New York, property, an understated pergola offers poolgoers some respite without having to venture all the way indoors.

6 EXTERIOR HOUSE COLORS WITH EXCEPTIONAL CURB APPEAL

Few tricks transform a space quite like a fresh coat of paint. And while you may have gone ham on the walls of your domicile, you're ready to think outside the box (er, home) with an updated exterior makeover. Choosing the right modern paint color for your home's exterior can have a major effect on the vibe (and value) of your house and provide an opportunity to showcase the geographical region or time period in which your home was built.

Of course, painting the outside of your home can be costly and cumbersome, so do your research and choose your colors wisely. Whether you're highlighting your home's architectural details or bringing some vibrance to your neighborhood, adding color to a lackluster front facade or aiming to transform your drab backyard into a Beverly Hills-worthy oasis—we've got just the inspiration you need for your next home renovation project. From woodsy neutrals to vibrantly painted stucco, your before-and-after is bound to leave a lasting impression on you and your neighbors.

1

BRIGHT WHITE

The most popular exterior color by miles, a clean, white exterior is never a bad idea, whether you're lucky to own a luxe Hollywood estate or a sleek, modern aesthetic. For design firm Chango & Co., based in Brooklyn, "we like Benjamin Moore's Super White color because it doesn't feature a lot of strong undertones and it feels fresh."

2

SANDY PINK

The blush-colored exterior walls of this Roman penthouse designed by the firm Alvisi Kirimoto match the terra-cotta floor tiles—an effect only heightened by the warm Italian sun.

3

CREAMY WHITE

For a home that exudes a nonchalant attitude, try painting your exterior a cream or off-white shade like the exterior of this Spanish-style hacienda. According to a survey by Alside, 20 percent of homeowners would opt for a cream or off-white shade for their siding in 2023, and 14 percent would pick a true white. Designer Audrey Sheck would consider herself among those, noting that she loves cream paint for its versatility. “It has a historic feel to it thanks to the dimension and character infused into the color,” she says.

4

HUNTER GREEN

Take a note from this country guest barn by Hendricks Churchill for your next exterior paint job. A hunter green pulls from all the surrounding nature and is great for those looking for a bold yet understated shade. Studio Green by Farrow & Ball is a favorite among designers like And And Studio and Studio DB.

5

MAHOGANY BROWN

Whether you want your home to become one with nature or are simply looking for a dark statement like this striking shou sugi ban residence, a rich, mahogany brown paint can achieve both. It will mimic the tree bark and natural tones of your home's surroundings, and the paint color will feel fresh for years to come.

6

BRICK RED

Lean into the midcentury modern trend that is sweeping interiors, and take it outside. Frank Lloyd Wright's iconic Two Rivers, Wisconsin, home boasts a vibrant red exterior that is brown enough not to read too firetruck red.

6 SPRING DECORATING IDEAS TO FRESHEN UP YOUR HOME THIS SEASON

It's been a long, cold winter, and we're ready for relaxing days soaking up some vitamin D. There's no better way to welcome the new season than by giving your home a fresh update with a warm and inviting look. And the good news? Incorporating new elements into your home decor doesn't have to put a dent in your wallet.

Whether you'd like to simply add a select table centerpiece or go for a whole home revamp, we've got some egg-cellent ideas for you, from fresh flower arrangements to soft-hued color palettes to the inclusion of a few darling critter figurines. And we're sharing some chic ideas on how to swap out a few decor items like baskets, blankets, or a dinnerware set. However you choose to put a spring in your step, these 12 home decor ideas will revive any space.

1

ADD POM-POMS

If you're tired of the same faux spring decorations, add your own colorful flair to something from your backyard. This Easter pom-pom tree is as fresh as it is funky. "It's a beautiful way to add a handmade touch while staying elegant," says Brittany Watson Jepsen, founder and creative director of The House That Lars Built.

2

GREEN AND MORE GREEN

Lori Rhode personalized her console table for spring by conjuring up all the best visions of the season. "An abundance of bunnies, blossoms, and baskets of greenery were cohesively arranged and meant to represent the start of Easter," she explains.

3

A HOPPY DINNER DISPLAY

For home and gardening enthusiast Haze Navarro, spring is the most exciting time to spruce up the home. “The season offers plenty of opportunities to mix classic with campy while still bringing a fresh look to the table,” she says. Opt for a table display that contrasts with the existing color palette, like these two adorable statement wired bunnies that are joyously impossible to miss.

4

ANTIQUATED SPRING

If you’ve mastered the sophisticated neutral look, this chic mantel display might spark a few ideas. “The inspiration for my Easter mantel came from the cute wooden garland,” says blogger Lori Hanrehan, who describes her home decor style as casual French country with a touch of English cottage. “Clay pots filled with wooden eggs, vintage books, soft blooms, and candles blend together beautifully to create a simple but cheerful holiday display!”

5

BANQUETS AND BLOSSOMS

Pink blossoms are perhaps the most iconic spring motif. Take a few notes from Lory Bernstein's Easter table display by pairing pretty pink blossoms with contrasting teal dinnerware for a look that is brimming with charm.

6

MIX AND MATCH

How many flowers is too many? According to Lenox's chief creative officer Fawn Ostriak, you can never have enough. Freshen up your spring table by styling colorful flowers with traditional dishware. "Lush floral patterns and colors will provide that perfect spring aesthetic," adds Ostriak.
