6 SMALL PATIO IDEAS THAT WILL MAKE YOU WANT TO SPEND ALL DAY OUTSIDE

In a perfect world, your home would have a sprawling backyard with designated spaces for a pool, an outdoor kitchen, and a lounge area. The reality for most of us (we're looking at you, city dwellers)? A small deck or a diminutive patch of grass. But, if the homes in ELLE DECOR have taught us anything, it's that big design opportunities can come in small packages—you just need to get a little creative.

Depending on where you live, your outdoor space might be a part-time setup that you furnish once sunny weather hits. Whether you treat your area as a seasonal retreat or a year-round hot spot for postdinner s'mores, it should be connected to the rest of your home decor. To help take your style outside, we've pored over the archives to find the small patio ideas that are big on style. From fire pits to fetching furniture, the spaces below make a case for embracing Mother Nature in all her glory.

1

ACCENTUATE YOUR ANGLES

Calling all minimalists: Pared-back furniture is the perfect way to bring some modernity to the great outdoors. When designers Christine and John Gachot revived Paul Rudolph's former Manhattan home, they dressed the outdoor space in Blu Dot's sleek table, a set of custom chairs, and a classic Charlotte Perriand stool. The result? A winning combination of hard and soft elements.

2

LOUNGE AWAY

For a small patio idea that looks as good as it operates, take a cue from Studio Schicketanz and add a set of matching chaise longues. The sleek style is fitting for this Silicon Valley home, while the Kerry Joyce performance fabric will keep stains and spots to a minimum.

3

STUN WITH SYMMETRY

Think of a symmetrical setup as the furniture equivalent to ASMR; one that could look good in all spaces and sizes. This Hamptons, New York, home nails the look with a coordinating conversation set and Paola Lenti's patio table.

4

PACK ON THE PLANTS

Concerned your outdoor space will look good only during a few months of the year? This Malibu, California, home suggests otherwise. Here, a lone tree is planted in the center of this back patio, which will make a statement when paired with outdoor furniture or proudly standing solo. (Plus, ample foliage will look beautiful in seasonal environments.)

Shade Degges

5

SPRING FOR SUSPENDED STYLE

Want to take your small patio decor to new heights? Add a hanging chair like Workshop/APD incorporated in this Pebble Beach, California, home. This design trick offers an awesome place to kick back and relax—all without taking up too much precious square footage.

6

MIX AND MATCH

Matching furniture might be an easy and efficient way to dress up your small patio, but it can be a tad boring. Instead, shake things up by piecing your outdoor set together one by one. This Palm Beach home designed by Caroline Rafferty offers plenty of visual intrigue—thanks to a Room & Board sofa and two matching Sam Son chairs, which Konstantin Grcic designed for Magis.

5 BATHROOM FLOOR TILE IDEAS FOR THE PRETTIEST PRIVY EVER

Bathrooms may be some of the smallest rooms in the house but, perhaps because of their size, they offer decorators the chance to take more risks. Nothing is more exciting than opening a bathroom door and discovering a beautiful world of color and pattern or a soothing, serene spa—that may or may not be a departure from the rest of your house’s maximalist or minimalist vibe. What anchors it all, of course, is the bathroom floor, especially when it’s paved in gorgeous tiles. As for how to incorporate them into your space, Artistic Tile president Lauren Cherkas encourages homeowners not to hold back. “Think about how the floors take up much less square footage, compared to the walls, of the space,” she explains. “It’s the perfect opportunity to select what you love.” So don’t be afraid to go bold. If you’re starting out on a renovation and unsure of what to do, we’ve canvassed some of our favorite bathroom floor tile ideas to offer you plenty of inspiration. Happy scrolling!

1

AZURE BLUE TILES

Whoever said too much of a good thing is bad? A palate-cleansing white ceiling and upper wall afford an all-out blue tile takeover in a California kids bathroom, by ELLE DECOR A-List designer Pamela Shamshiri. The bright azure tiles are from Heath Ceramics.

2

GRAPHIC TILES

Take a cue from designer Tracy Hardenburg, whose penchant for bold geometric patterns ever inspires. In this glamorous loo, Hardenburg opted for a graphic, geometric pattern using Liaison Mulholland by ELLE DECOR A-List Titan Kelly Wearstler for Ann Sacks. Sometimes the art of decorating really is that black and white!

Pär Bengtsson

3

MOROCCAN-INSPIRED TILES

When you have a small space, using pattern can make it feel bigger. Here, a geometric blue Popham Design tile runs from floor to ceiling. We'd go so far as to say the final result is a dream come blue.

4

HIGH-FASHION FLOOR TILES

In this blush-hued powder room, the intricate Italian tile floors were inspired by Phoebe Philo's stores for Celine. "[The client] pulled a really early reference to it," says Le Whit's Liza Curtiss. "Because of the diamond shape, we thought that it created a really fun pattern, and it mimicked Murano glass."

Matthew Williams

5

CHECKED-EVERYTHING FLOORS

You can never have too much of a good thing, as designer Victoria Sass of Prospect Refuge Studio proved in this happy Wisconsin lake house. “It’s plaid city in here!” she says of the powder room. Working with a Minneapolis tile company called Clay Squared to Infinity, she created a number of custom glazes and patterns to achieve a perfectly rustic summer camp vibe.

6

BLOWN-UP CHECKERBOARD SLABS

If you can swing it budget-wise, think beyond ceramic tiles for your bathroom. In the spa-like bathroom of her Toronto home, designer Montana Labelle paved the area surrounding her Brutalist-inspired custom vanity in tiles from her own home line.

THESE 6 BOLD DESIGN TRENDS WILL REIGN SUPREME THIS SPRING

Spring is around the corner—and with it, our collective itch to refresh is in full swing. After a winter largely spent housebound, we're ready to breathe some new life into our space. With that in mind we asked the style pros at Joss & Main to chime in on the latest trends and must-have, high-impact pieces that ship to your home fast and free.

1

EXPRESSIVE SILHOUETTES

“Curves are making a big comeback in 2022,” says Adrienne Brown, head of Joss & Main. “Originally popular in the ‘70s as part of the mid-century modern movement, curved furniture silhouettes bring a new modern-meets-feminine energy to today’s spaces.” Be on the lookout for soft edges and sculptural forms like these finds, which are as inviting and style-enhancing as they come.

2

GRAPHIC & GROUNDED

Yes, black is moody and chic, but when combined with natural materials, it can be a calming presence. These pieces are proof.

Joss & Main

3

TACTILE TEXTURES

Who says rough around the edges is a bad thing? With their mix of natural elements and earthy textures, these must-haves give you the trifecta: beachy, relaxed, and unmistakably gorgeous.

4

NATURAL CONNECTION

Pay homage to Mother Nature in every room, with accent pieces that deliver the beauty of the great outdoors straight into your home.
